

# Easyboot "Back Country" & Back Country Wide Sizings

Success of the Easyboot Glove Back Country is determined by accurate measurements and a snug fit. Because of the velcro fastening system in the Back Country is not usually necessary to use a Fit Kit for sizing this style boot. Ideally the length and width should be in the same range, if your length and width indicate different sizes choose the larger size. If your measurements are different by more than one size then a different boot style would work better for your horse.

## How to measure for the Easyboot Glove Back Country:

1. After a fresh trim, measure the width of the hoof across the bottom at the widest point.
2. Measure the length of the hoof from the toe to the buttress line of the heel. The buttress line is the farthest weight bearing point of the heel where the hoof wall ends. Do not include the heel bulbs in the measurement.

Compare your measurements with the appropriate size chart. Ideally, the length and width measurements should fit into the same size on the chart. Because of the nature of the way the back country wraps over sometimes if you feel they are a tight fit you can successfully upsize a half size.

If you find you fall well outside the sizing be sure to check the measurements against an alternative boot style in the EasyCare line—another style may accommodate your horse's hoof shape better. The Back Country comes in two sole shapes so be sure to check the wide sizing too and please when ordering be sure to note if you need "normal" sizing or "wide" sizing.

## Easyboot Glove Back Country,

Normal			Wide		
Size	Width in mm	Length in mm	Size	Width in mm	Length in mm
00	96-99mm	106-109mm	0W	114-117mm	114-117mm
00.5	100-103mm	110-113mm	0.5W	118-121mm	118-121mm
0	104-107mm	114-117mm	1W	122-125mm	122-125mm
0.5	108-111mm	118-121mm	1.5W	126-129mm	126-129mm
1	112-115mm	122-125mm	2W	130-133mm	130-133mm
1.5	116-119mm	126-129mm	2.5W	134-137mm	134-137mm
2	120-123mm	130-133mm	3W	138-141mm	138-141mm
2.5	124-127mm	134-137mm			
3	128-131mm	138-141mm			
3.5	132-135mm	142-145mm			
4	136-139mm	146-149mm			
4.5	140-143mm	150-153mm			
5	144-147mm	154-157mm			

*Because of the fastening system used for the Back Country boot a fit kit is not necessary.*

Success of the **Easyboot Glove** and **Easyboot Glue-On** is determined by accurate measurements and a snug fit.

For the **Easyboot Glove** and **Easyboot Glue-On**, you will need to measure *in millimeters*. Measuring in inches and converting to millimeters will render the measurement process inaccurate.

*\*Do not assume that if you wear a certain size in another boot style, you will wear the same size Glove Back Country – boot sizes differ according to boot styles. Available online at [www.easycaredownunder.com.au](http://www.easycaredownunder.com.au)*
